

PHOTOGRAPHS - KIE-LOCK PILE SPLICE

16" to 14" sq. pile splice Driving -- 2 pictures

16" sq. Top Segments to
14" sq. Bottom Segments

San Francisco –
Mission Bay Project

Use of 16" sq. top segment
65 ft. long with reinforcement
for higher moment capacity,
combined with 14" sq. 100 ft.
long bottom segments saved
on piling costs.

The Sure-Lock has also been
used to splice 20" sq. top
segments to 16" oct. bottoms.
